

Annex ZA for harmonized standards

D160/020 BT, noting the issue related to Annex ZA, agreed that, for harmonized standards only, at circulation in CENELEC of the IEC CD/CDV under the Secretariat Enquiry/Enquiry the following is applied:

- Circulation of the Annex ZA with the CD/CDV is recommended. The relevant part of D159/C071 (BT159/DG10841/DV) related to the skipping of FV is also to be considered.
- Triggered by the registration of the ACD/ACDV at IEC level, the TC Secretary or the project manager in the NC holding the secretariat of the SR will request CCMC to deliver a 'draft Annex ZA' consisting of a template completed with the identified International normative references and their European homologues. In case of review of existing standards, the Annex ZA of the previous version is to be delivered.
- The Technical Body shall analyse the list of normative references and update it on the basis of comments received at Secretariat Enquiry (CD) or Enquiry (CDV).

The above process is to be assessed one year after its implementation.

Decision applicable from 2018-10-11
