

Technical changes after vote and prior to publication

D149/017 BT decided, in cases where the TC secretary (in consultation with the TC Chair and WG Convenor) sees a justified need for **limited technical changes**, this after the vote and prior to publication, to prevent a deficient standard and subject to agreement by the TC, that:

(a) such cases shall be **exceptional** i.e. where there is a need for the immediate correction of an error, and

(b) the **justified request** is made by the Permanent Delegate holding the corresponding TC secretariat, to the BT Chair and the Director Standards,

(c) the modified text is approved by BT following the provisions of IR2 clause 6.1.4 (by correspondence, majority + weighted vote).

and asked CCMC to issue a Circular.
